 vidhijha2021@gmail.com

 Dubai, United Arab Emirates

Education

1st year B. Tech in ECE VLSI

**National Institute of
Technology, Warangal**

First sem CGPA: 8.94

2025-26

High School Diploma

Delhi Private School, Dubai

- 12th Boards: 90.2%
- 10th Boards: 96.6%

2021-2025

Skills

- Python
- C++

Languages

- English
- Hindi
- Maithili

Miscellaneous

- Visharad (graduation) degree from Prabhakar for Kathak Dance
- Joined DND Club, which won the 2026 Spree competition

Profile

I'm a first year Eletronics and Communication Engineering (VLSI) student at National Institute of Technology Warangal. I'm passionate about building innovative solutions that bridge academic knowledge and real-world impact.

Projects Made

Smart Pill Reminder Box

- Pill Box that used multiple LEDs and a buzzer to remind the users when it was time to take their medicines.
- Used an Arduino Nano ATmega328P microprocessor, RTC module to store time, and GSM module to alert caretakers whenever a dosage of a particular pill was missed.
- Had an OLED display to let users customize which dosage needs to be taken when.

Ultrasonic Levitation Switch

- Contactless, ultrasonic based switching mechanism which detects a levitating object to trigger an action.
- Used a 40kHz ultrasonic transducer to suspend an object in midair, and an L289N motor driver to execute any secondary action.

Achievements

- **TEDx Talk**
Gave a TEDx Talk on Parasocial relationships, their history and the psychology behind them at TEDxNITW 2026
- **Class Representative**
Served as CR for ECE VLSi for 2 semesters
- **ECE Society**
Entered the ECE Society Technical and Design teams
- **Software Development Club**
Joined the Software Development Club and helped in event organization
